

## ZINC 30 MG

*Zinc (Zinc Sulphate) 30 mg*

Zinc is an essential mineral that plays an important role in many enzymatic functions. Zinc also helps support healthy immune system functions and is an important component of bodily antioxidant systems. Vitamin B<sub>6</sub> also plays a role in cognitive development through the biosynthesis of neurotransmitters and in maintaining normal levels of homocysteine, an amino acid in the blood. Vitamin B6 is involved in gluconeogenesis and glycogenolysis, immune function, and hemoglobin formation.

### Zinc 30 helps

- »
- » Maintenance of good health.
